Current Stage

Cryptonex has launched the website wallet and the mobile one is currently in the testing stage. The website P2P trading area supports more than 50 types of fiat currencies / tokens, users can use VISA or MasterCard to buy digital tokens directly.

According to the trading data disclosed on the official website, the platform trading volume is about \$150 million per day. The block browser has few records and currently only displays 100 transactions. The distribution of tokens is still not disclosed, and the user scenario is not clear.

TokenInsight provides customized service such as project code analysis and project community analysis, etc. For more information, please contact bd@tokeninsight.com or visit tokeninsight.com
