## Risk

Monetha provides a decentralized platform for reputation ratings and cryptocurrency payments to the e-commerce industry. Both sellers and buyers can utilize the Monetha App to rate each other, and the rating function can be integrated by 3rd party applications. However, the background of the project's members is ordinary, and the current user base of both the Apps and plugins is small.

## Project

#### Monetha Rating

Users can reach Monetha's rating function in various ways, such as Apps from both Apple Appstore and Google Play and plugin functions on e-commerce websites. In Monetha's App, buyers and sellers can search each other by phone number. Then, they can rate each other on the platform. By the independent system and combination with blockchain technology, Monetha provides a cross-platform rating service for its users.

#### Monetha Payment

Monetha also provides a series of tools for payment of digital tokens. By the plugins provided, users can easily integrate the functions into their website, and accept digital tokens as a payment method.
